

YOUR VEHICLE AND THE RISING TEMPS

What you need to know...

Tire Check Up- Sometimes summer weather brings rain, make sure your tires have adequate tread to handle the water on the road

Windshield Wipers – It is recommended that you change your wipers every six months to prevent the wear and tear that keeps you from seeing clearly

Cabin Air Filter – With all the pollen in the air it is a good idea to check your cabin air filter, make sure the air inside your car is clean, especially if you have allergies

Car Wash Time – The hot summer sun is hard on your vehicle's paint job, show your car some love, give it a good wash and wax

Cooling System – With the weather getting warmer, make sure your cooling system is tip top. If you notice any greenish puddles under your car, let us know ASAP

Keep your Vehicle Hydrated – Make sure all your fluids have been topped up ie: windshield washer fluid, oil, antifreeze, etc...

Remember... Hot cars and pets don't mix, please leave your pets home this summer

For all you gardeners out there...

How do you fix a broken tomato?
With tomato paste of course :)

NEED TO GET YOUR VEHICLE SERVICED BUT ARE STUCK AT WORK?

Did you know...

**We pick up and deliver
in the Woodstock area!**

Looking for something to entertain the kids?
