# ROAD TRIP TIME!

 Tips for getting road ready!

1. Make sure your tires are properly inflated. Don't know what your tire pressure should be? Check the drivers side door post.
2. Check your battery, it's cheaper to replace your battery before it fails.
3. Rain can happen on even the sunniest summer day. Make sure your windshield wipers leave you with a clear line of vision. Also take the time to refill your washer fluid.
4. When your cabin air filter is plugged with dirt, dust and mold it restricts the air flow into your car's cabin giving you less cold air on those hot summer days.
5. Ensure your vehicle's belts are in good shape. A blown timing belt can bring your happy little road trip to a screeching halt.

Come in today for a **WARRANTY APPROVED Highlift Auto** oil change, we check all the above with every service!

**REMEMBER: Hot cars and pets don't mix. Please leave your pets at home.**

## TIP OF THE MONTH

Check your tire pressure when the tires are cold. After your car is driven the tires heat up, heating up the air inside the tires giving you a false tire pressure.
