

Camping season has begun!

RV Travel Trailers • Bearings

Your trailer's bearings reduce the friction on the wheel. The bearings must be well lubricated to work properly. Bring your RV trailer to Highlift Auto to have the bearings checked and or replaced. Have you had your RV's bearings checked lately??

RV Tow Vehicles • Maintenance

RV tow vehicles often have special maintenance requirements, including more frequent changes of engine and transmission oils and filters, lubrication of components, and cooling system checks. Read your owner's manual for information on your tow vehicle.

Is your RV Trailer
ready for the road?

We sell and install tires
at competitive pricing!

FOR CARS, TRUCKS, TRAILERS & RVs

Interesting Fact!

Texting while driving has pushed ahead of impaired driving as the biggest single traffic safety concern for Canadians, a CAA poll has found.

Camping ALERT!

In case anyone is considering doing some camping this spring or summer, please note the following public service. In Alaska, tourists are warned to wear tiny bells on their clothing when hiking in bear country. The bells warn away MOST bears. Tourists are also cautioned to watch the ground on the trail, paying particular attention to bear droppings to be alert for the presence of Grizzly Bears. One can tell a Grizzly dropping because it has tiny bells in it. Ha Ha 😊

Happy Trails,
Mark and Darcy

HOURS MON - WED & FRI : 8AM-5PM • THUR : 8AM-9PM
