Tip of The Month: Cabin Air Filters

Cabin air filters clean the air coming into your car trapping allergens, mold, dust and more helping you breathe easier! Here are just a few reasons to change your cabin air filter on a regular basis:

- Cleaner air in passenger compartment
- Removes dust, soot, and air born pollen
- Removes microscopic particles and foul odors
- Reduces allergy related problems
- Improves heating and air-conditioning performance

Entering A Trade Program This Fall?

See if you qualify for the **Highlift Auto Service trades Bursary!**

Over the years we have looked for different ways to give back to our community. Three years ago we started a bursary program in three local high schools for graduates looking to start a career in the trades. If you are a 2016 high school graduate or know someone who is ask your guidance counsellor about the Highlift Auto Service Trades bursary. This bursary is open to all students entering a trade program in the fall.

(Available in Canterbury, Woodstock and Hartland)
