

Time For A Road Trip!

BEFORE SETTING OUT ON THE ROADS THIS SUMMER MAKE SURE YOUR VEHICLE IS AS READY FOR A VACATION AS YOU ARE!

- 1. OIL** • Make sure your oil change is up to date
- 2. BATTERY** • Check the strength of your battery, the summer heat is as hard on the battery as the winter cold
- 3. CABIN AIR FILTER** • A clogged filter restricts air flow and makes it hard to cool your car
- 4. WINDSHIELD WIPERS** • Old, streaky wipers make it hard to see if you have a rainy day
- 5. FLAT TIRE** • Check your spare, you might need it!
- 6. LIGHTS** • Take a quick walk around your vehicle checking all lights and blinkers

This summer... Do not leave your children or pets in an unattended car! Only a few minutes in a car with the windows up can turn it into a furnace!

Tip of the Day: Cabin Air Filter

Not getting enough air through your car's vent? Check your cabin air filter! When your cabin air filter is plugged enough air cannot pass through to cool your car. Have you had your cabin air filter checked lately?

Did You Know?

We service and inspect RVs

Join us for a **FREE Swim**
at the **AYR Motor Center**
(FORMERLY CALLED THE CIVIC CENTRE)
